UK framework for property asset management - strengths

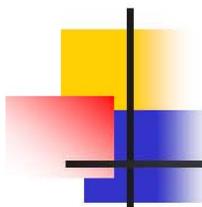

UK framework for property asset management - strengths

- Ambitious scope - £1 trillion

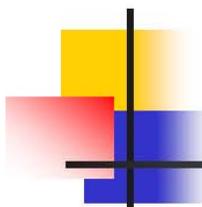

UK framework for property asset management - strengths

- Ambitious scope - £1 trillion
- Explicitly public and private

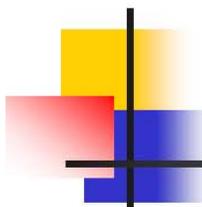

UK framework for property asset management - strengths

- Ambitious scope - £1 trillion
- Explicitly public and private
- Emphasises alignment with business objectives

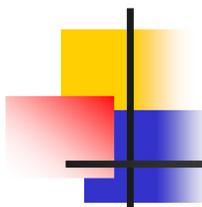

UK framework for property asset management - strengths

- Ambitious scope - £1 trillion
- Explicitly public and private
- Emphasises alignment with business objectives
- Cross discipline

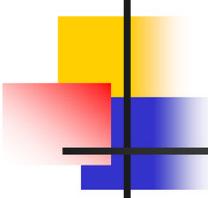

UK framework for property asset management - strengths

- Ambitious scope - £1 trillion
- Explicitly public and private
- Emphasises alignment with business objectives
- Cross discipline
- Measurement, standards, information and management

UK framework for property asset management - strengths

- Ambitious scope - £1 trillion
- Explicitly public and private
- Emphasises alignment with business objectives
- Cross discipline
- Measurement, standards, information and management
- Holistic approach

potentially a quiet revolution

- Lasting gains in efficiency
- Massive reduction in overheads
- Better working conditions
- Better more responsive services
- Time to rethink the very role of property in the delivery of public services
